

A new website for Dorset Diabetes

A new website for Dorset Diabetes is being developed by the NHS in Dorset. We want to hear about your experiences so we can better understand what information on diabetes you would find useful.

We'd like to hear from people who have diabetes or are at risk of getting it, as well as their families. And those who provide Diabetes services.

surveymonkey.co.uk/r/dorsetdiabetes

The survey is live until **Wednesday 6 September 2023**.
All responses are confidential.

Please email communication@nhsdorset.nhs.uk if you have any questions about the project or would like to request a paper or easy-to-read version of the survey.

For more information on diabetes, please visit
nhs.uk/conditions/diabetes
